

Name: Date: Your Side (W or B): Chess Game or  
Computer Program: Level: If computer has White,  
write its 1st move here: 

Challenge yourself against a strong chess computer. Can you survive for at least 20 moves? Can you give checkmate?  
**BEFORE** you make each move, picture it! Write the 3 replies to your move that you think the computer is most likely to make. Win 1-3 points by predicting correctly. For each prediction, write the follow-up move you plan to use.  
**THEN** write your move ... make it ... write the computer's actual response ... circle the points earned by your prediction.

Write the 3 ways you think the computer is most likely to reply to your next move, AND how you plan to handle each possibility:

	③	②	①	Your Move	Computer's Move	Points for Predictions
1.	_____	_____	_____	_____	_____	3 2 1 0
2.	_____	_____	_____	_____	_____	3 2 1 0
3.	_____	_____	_____	_____	_____	3 2 1 0
4.	_____	_____	_____	_____	_____	3 2 1 0
5.	_____	_____	_____	_____	_____	3 2 1 0
6.	_____	_____	_____	_____	_____	3 2 1 0
7.	_____	_____	_____	_____	_____	3 2 1 0
8.	_____	_____	_____	_____	_____	3 2 1 0
9.	_____	_____	_____	_____	_____	3 2 1 0
10.	_____	_____	_____	_____	_____	3 2 1 0
11.	_____	_____	_____	_____	_____	3 2 1 0
12.	_____	_____	_____	_____	_____	3 2 1 0
13.	_____	_____	_____	_____	_____	3 2 1 0
14.	_____	_____	_____	_____	_____	3 2 1 0
15.	_____	_____	_____	_____	_____	3 2 1 0
16.	_____	_____	_____	_____	_____	3 2 1 0
17.	_____	_____	_____	_____	_____	3 2 1 0
18.	_____	_____	_____	_____	_____	3 2 1 0
19.	_____	_____	_____	_____	_____	3 2 1 0
20.	_____	_____	_____	_____	_____	3 2 1 0
